All 38mm cases are identical, except for the length.

Lengths:
- 38-120 4.81"
- 28-240 7.00"
- 38-480 11.5"
- 38-740 16.0"
- 38-1200 24.625"

Material is 6061-T6 drawn tubing

Notes on DOM tube:
The design can tolerate up to 0.004" variation in wall thickness.
We've been getting a lot of crappy Chinese tube that is much worse than this. Check your tube stock before machining cases. We can provide some fit gauges to help with this.
